COMMON QUESTIONS

Straight answers.

Can every doorway be widened?
Not always. Load-bearing walls and services change what is possible, and we explain the options at the visit.

How much extra width do offset hinges give?
Roughly the thickness of the door, often around 40 to 50 mm. Sometimes that is all it takes.

Does widening need council approval?
Internal non-structural changes usually do not. Structural changes can. We check and tell you.
